

Meeting #18

Epigenetics Club of Grenoble

Epigenetics Meeting

Thursday, October 17th 10am

Institute for Advanced Biosciences

Seminar

Carlo PETOSA (IBS)

Insights into the structural plasticity of chromatin

Short talks

Domenico IUSO (IAB)

A key player linking Acyl-CoA metabolism to histone modifications

Sagar BHOGARAJU (EMBL)

Structural and functional studies of Legionella toxins: a unique ubiquitin ligase and its nemesis
